DETAILED ACTION

Status of Claims

Claims 32-56, and 58 are pending in the application. Receipt is acknowledged of applicant's amendment / response filed on August 1st, 2003, and that has been entered. Claims 1-31, and 57 have been canceled.

Applicant's arguments and reasoning are persuasive with respect to the restriction requirements for above pending claims under 35 U.S.C. §121. The restriction requirements have been withdrawn and Examiner regrets any inconvenience that this may have caused.

Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Gregory et al (US Pat No. 4,705,799) teach amino-methyl oxooxazolidinyl benzene derivatives, their process of making and pharmaceutical compositions containing thereof. The instant process differs from the prior art by having a multi step synthesis reaction such as contacting a carbamate with a secondary alcohol and there after subsequent reactions to obtain a substituted oxazolidinone compound. The prior art process neither teaches nor renders obvious the instantly claimed process and there is no suggestion or motivation to modify the process of other prior art to obtain the instant process. Therefore the instant claims are allowable over the prior art of record.
